INTERNSHIP EXPERIENCE

Razer Inc.

Jan 2026 – June 2026

Product Management Intern, Razer Gold

- Expanded Razer Gold's B2B2C global payment network by leading the integrations of 16 payment channels across Japan, Thailand, Indonesia and other markets, helping onboarded merchants reach more gamers while giving gamers greater payment flexibility.
- Collaborated cross-functionally with business and engineering to gather product requirements for regional payment integrations.
- Created PRDs translating business requirements into technical specifications, user stories, acceptance criteria and success metrics, aligning business and engineering teams on product delivery.
- Improved payment reliability by conducting QA and UAT across multiple channels, validating end-to-end transaction flows and resolving issues before launch.
- Improved product backlog management efficiency by automating product change requests tracking with Excel VBA, reducing manual updates and improving visibility into timelines and delivery progress.

Health Promotion Board (HPB)

July 2025 – Dec 2025

Product Manager Intern, Integrated Programme (IP)

- Supported the end-to-end product lifecycle of Healthy 365 (H365) features such as *Digital Badges* and *Meal Log*, strengthening H365's capabilities for health tracking and user engagement.
- Collaborated with UX/UI designers and technical teams to translate complex business requirements into technical specifications and design deliverables, driving story grooming, user journey mapping.
- Generated actionable insights from nearly 1,000 H365 users by designing survey content, marketing collateral and user communications for H365 *Meal Log* and *Special Challenges*.
- Conducted data analysis on user research, behavioural data and performance metrics to identify pain points and generate data-driven insights for H365 *Meal Log* and *Special Challenges*.
- Ensured product launch readiness by conducting QA and UAT, identifying usability issues and resolving defects to improve the overall user experience for H365 *Digital Badges* and *Meal Log*.

Firstcom Solutions

Apr 2020 – Aug 2020

Web Development Intern

- Sustained high-performance operations across a portfolio of 20+ eCommerce websites by driving rigorous quality assurance, eliminating content defects, and resolving frontend technical issues to minimize revenue downtime.

RELEVANT PROJECTS

DSTA BrainHack 2024 Hackathon – XRperience

June 2024

- Developed "MediEXP", a 3D VR simulation, created using Unity and the Mixed Reality Toolkit, to simulate various medical procedures for children with no prior experience in medical procedures and people who experience anxiety during certain tests and procedures.
- Achieved Top 5 Finalists

DSTA BrainHack 2023 Hackathon – XRperience

June 2023

- Developed "EcoAdventures", a 3D education and interactive game, utilizing Unity and VR technology, with a primary focus on promoting sustainability awareness and fostering good recycling behaviors among youth.
- Achieved 2nd Runner Up Medal
